Ref. No. AES/TCC/ Local, 177Date: **19 AUG 2019****CODE OF ETHICS IN RESEARCH AND PLAGIARISM POLICY****Preamble**

The quality and innovation of research in the fields of humanities, social sciences, and basic sciences is emphasized at Tuljaram Chaturchand College of Arts, Science and Commerce, Baramati. This policy was adopted by college to emphasize and promote research, ensuring an ethical research environment for the faculty and students. Encouraging research among faculty and students is one of our objectives.

Policy aims to nurture and encourage a research culture among students and faculty.

A] CODE OF ETHICS IN RESEARCH

Key values that researchers should incorporate into their research are as follows

- ❖ **Social responsibilities:** Researchers comprise a diverse community and take the responsibility of enhancing the community. Problems in the local, national, and worldwide communities should be taken into consideration by the researcher, and these issues should be covered in their research. Their contribution should be towards the development of ethical and prosperous communities.
- ❖ **Goodwill:** This refers to conduct of research in ethical way. Do not cause harm. Increased possible benefits and reduce possible harm. This should be considered especially for projects in pharmacology/clinical trials etc., where human and animal subjects are involved, also individuals involved in research should avoid harm to each other.
- ❖ **Respect for the individuals:** This refers to autonomy of an individual for his action unless such actions are clearly detrimental to others to show lack of respect for autonomous person means to disregard person opinions, thoughts, actions and not to grant him the field freedom and to act in terms to withhold information that is essential for making a considerate discussion when there is no compelling reason to do so. Respect for immature and unaccountable person requires that such person should be protected when they are immature or unaccountable.

- ❖ **Professionalism:** Following professional responsibilities should be adopted by the researchers
 - Every researcher should be able to rely on truth and objectivity of reports of other scientists.
 - Researchers are responsible for a quality, accuracy, reliability of their own research or research done under supervision.
 - Individual researcher shall be responsible for originality of the work and reporting the research.
- ❖ **Justice:** It is one of the main goals of this college and refers to treating every person fairly.
- ❖ **Sexual harassment:** Sexual harassment in any form should be refrained and should be reported to the sexual harassment cell of the college.

B) RESEARCH OBLIGATIONS

- ❖ **Environment:** Considering authority duties of researchers, there should be conducive environment maintained by the researchers.
- ❖ **Equipment:** Equipment shall be assets of the college and actual infrastructure of college can be used by anyone belonging to the college and affiliate and hindrances in granting permission by the in charge faculty shall be considered as misconduct. Similarly, Equipments mishandled purposefully by the researcher shall also be considered as misconduct.
- ❖ **Misconduct in research:** Misconduct in research can be framed under Plagiarism too.

C) AWARENESS PROGRAMMES AND TRAININGS

- ❖ College instructs students, faculty and staff about proper attribution, seeking permission of the author wherever necessary, acknowledgement of source compatible with the needs and specificities of disciplines and in accordance with rules and regulations governing the source
- ❖ College conducts sensitization seminars, awareness programmes on responsible conduct of research, project work, assignment, thesis, dissertation, promotion of academic integrity and ethics in education for students, faculty and other members of academic staff.
