Instructions to Candidates for the SNAP Test 2023

- A candidate can appear for up to three tests for SNAP 2023. If a candidate appears for more than one test, the higher score will be considered for the final percentile calculation and there will be no normalization. A rigorous process that has been statistically tested will be administered to ensure that unique types of questions are framed under a specific topic across the question papers. The normal spread will ensure that there is no unfair advantage to candidates who opt for any specific test / multiple tests. This will ensure normalisation of the spread of questions across sections. Furthermore, the question papers will be normalised for the level of difficulty across all tests. No correspondence regarding this will be entertained.
