YOU MUST KNOW MORE BUYING Gold Jewellery

The price of gold jewellery is determined by the purity of the gold, which alloy it is combined with and by the amount of skill and labour that goes into the making of the article.

Gold has many variations. In addition to yellow gold, white gold and rose gold are also popular options. You can also find mixed gold, which is a mix of yellow, white and rose gold. The colour of the gold remains the same, but the metal is made of different metals.

In many countries including India, local law requires that every piece of gold jewellery bears a Hallmark. This is a mark that is stamped on the jewellery, usually in the form of a small square or circle, which contains the name of the jeweller, the purity of the gold and the date of the piece.

# WHAT GOLD JEWELRY COSTS

Here's an example to understand  
The real value of gold ornaments

Weight	Purity
10g	22 Carat

Making Charge: ₹ 300 (Value added)  
Gold Price: ₹ 5200 (Rate at 8th)  
Total Cost: ₹ 5500

## GOLD VS PLATINUM

Gold	Platinum
Look for Indian 22 Carat (83.3%) purity. Internationally, 24 Carat (100%) is considered the highest purity.	Indian jewelry is changed with a 17% to 20% increase in price. Hence, gold jewelry is more affordable than platinum jewelry.
Quality is determined by carat and purity (at 24 carat = 100% of value of gold).	It is determined by the purity and the weight of the metal.
Based on purity and the weight of the metal.	No standard pricing.
Weight is the main factor in determining the value of gold jewelry.	Weight is the main factor in determining the value of platinum jewelry.

**CONSUMER SCAMS AND KEY TAKEAWAY**

To not have to be a celebrity to win a consumer lawsuit legal case, is an example of this. He had \$2000 in his state Bank of Ohio account and had withdrawn \$2000 on his next visit to the ATM. He received all his money was gone when he asked the bank authorities they allowed a \$20000 to be used to the bank. Consumer disputes need financial reason with his account and because in the court ordered the bank Bank of Ohio to return the \$20000 to the consumer and pay him \$20000 in compensation and \$50000 in legal expenses.

My takeaway - Don't leave out all of your money in a consumer lawsuit. If you do, you may not get what you deserve. If you have a consumer lawsuit, you should not pay to have your money back.

### Consumer Awareness in social science.

#### Introduction

Today we go to market and buy quantity of goods and small services in our day-to-day life for the same, we pay money and expect satisfaction by consuming them. But sometimes the price promised made in advertisement, some companies make use of this to take because we are not aware of our rights & obligations.

Therefore, the need for consumer awareness was created by the government in the year 1986 to protect consumer's welfare, protect and improve.

#### Objective

- The objective of the report is to:
- Educate consumer awareness by making them aware of their rights as a consumer.
- Identify common household goods in domestic product for general consumer.
- To build confidence and educate benefits of the consumer.
- About the availability of the product and their brand.
- To give maximum satisfaction of the budget and customer.
- To help the needs of the consumer most effectively.

#### Conclusion
