

Workshop Completion Report

Date : 29/03/2023

To Principal,
Tuljaram Chaturchand College ,Baramati.

Subject: Report of Two days Hands on Training on Game Development.

Respected Sir,

Computer Science department has arranged "Two days Hands on Training on Game Development" under RUSA on 27 to 28 March. 2023 at daily 6 hours. This workshop is conducted in offline mode. The eminent person Mr. Rahul Shah is called as a resource Person.

For this workshop average 36 students from M.Sc. (CS)-I were present. Every student has understood the concepts by doing practical. All students were satisfied with the workshop. They learnt new concepts in Game Development.

Enclosure :-

1. Brochure
2. Attendance
3. Feedback of Students
4. Payment Voucher
5. Geo tagged Photos

Two days Hands on Training on Game Development

Content of Workshop

Content	Student Learning Objectives
Day 1 – Session 1 and 2	
Review of classes, objects and methods, data types, randomization and if statements. Quizlet activity.	Students will acquire and use accurately a range of domain specific words and phrases by implementing programs demonstrated on video and recalling vocabulary presented.
Introduction to loops and collections (while loops and arrays)	Students will prepare for and participate effectively in a range of conversations and collaborations with diverse partners, building on others' ideas and expressing their own clearly and persuasively. This will be accomplished through pair programming activities in which students are required to explain their thinking to their partner as they interpret text that describes the program they will write.
Collections and for-each loops. Object interaction	Students will analyse code and develop an understanding of how it can be broken into components to explore and understand relationships between objects and methods. They will apply this understanding to the completion of coding exercises.
For loop. Keyboard control and collision detection. Casting.	Students will produce clear and coherent code in which the development, organization and style are appropriate to task and purpose. They will also develop and strengthen their coding skills as needed by planning, revising, editing, rewriting, or trying a new approach. They will accomplish this by generating code to solve programming problems on the Coding Bat website which provides automatic feedback that informs students whether the programming task is complete or revisions need to be made.
Day 2 – Session 3 and 4	
Sound and images. Sound recording and editing. Sound file formats and file sizes. Image files and file formats. Drawing images. Combining image files and dynamic drawing.	Students will produce clear and coherent code in which the development, organization and style are appropriate to task and purpose. They will also develop and strengthen their coding skills as needed by planning, revising, editing, rewriting, or trying a new approach. They will accomplish this by generating code to solve programming problems on the Coding Bat website which provides automatic feedback that informs students whether the programming task is complete or revisions need to be made.
Simulations. Emergent behaviour and experimentation.	Students will produce clear and coherent code in which the development, organization and style are appropriate to task and purpose. This will be accomplished as students design, plan and produce a game of their own invention.
Work on final projects.	Students will develop and strengthen code as needed by planning, revising, editing, rewriting, or trying a new approach.
Completion and testing of final projects. Expo. The Expo! will feature hands-on stations at which children can demonstrate their work to parents, and parents can try out the applications that students have created.	Students will present their final projects, explaining game play, program, and organization of code in a style appropriate to task, purpose and audience.

Subject: About organizing two days Hands-On Training on Game Development Program for M.Sc. (CS) Students Under RUSA.

Respected Sir,

Department of Computer Science willing to organize **Two Days Hands-On Training on Game Development Program** on 27 and 28 March 2023.

Game development programme will provide a great opportunity to students to learn new skills and techniques. Students can gain valuable knowledge about game design, programming, art, music, and more.

Kindly allows us the following expenditure for the Hands-on Training Program.

Head	Amount
Resource Person Remuneration (Two days and 2 Sessions every day)	Rs. 12,000/-
Coordinator Remuneration	Rs. 1,000/-
Flex and Certificates Remuneration	Rs. 1,000/-
Total	Rs. 14,000/-

Kindly guide us and allow us for the same.

Attachment: Content of workshop.

Thanking you,
