According to New Revised CBCS Syllabus w.e.f. 2020-21

S.Y. B.Sc. (Computer Science)

Semesters-III

A Text book of

Numerical Techniques

Author: Arun Pandhari

ISBN: 978-81-946618-9-4

This book is authored by an eminent Post Graduate Head of Mathematics. He has over four decades of experience. It is written according to the revised curriculum of the University of Pune, which is scheduled to be implemented from June 2020.

It is meant to meet the needs of the student community and of professors teaching mathematics. This book is written according to the curriculum specifications of the university research committee and the text prescribed therein. It includes a systematic expansion of the topic, examples of different types of solutions, comprehensive exercises, and example solutions from real-life surveys.
