NEW HORIZONS IN ACADEMIC LIBRARY

This book contains valuable information regarding new development and technological application in academic library. This book is collection of various ideas, practices, innovations and experimental knowledge by the academic librarians all over India.

The application of cutting aged technologies conceptual know-how and new horizons in ICT environment has changed professionals' knowledge and skills, which are helpful to develop the new ideas for library and information science discipline. Also, it is beneficial for the library and information science students for the competitive examination like NET/SET to understand the basic concepts and theme and practical application of new technologies in libraries. It has involved web-based and proactive information services for library community to maintain standard in library and information services. New Horizons in Academic Library will be helpful on various level for library and information science, research scholars, professionals to improve their skill and capabilities, and practical LIS work for the future orientation.
