Report of IIRS-ISRO Outreach Programme

Anekant education society Tuljaram Chaturchand College Baramati, Department of Geography, in collaboration with IIRS-ISRO Dehradun, has organized 1036th outreach One-Day Workshop on "Remote Sensing-Based Data Analytics in Agriculture" was conducted successfully in online mode on October 26, 2023. The workshop aimed to provide insights into the application of remote sensing technology in agriculture and its role in data analytics for sustainable farming practices. There were about 35 students who joined the workshop. The online mode of the workshop proved to be an engaging and accessible platform for students. The heart of the workshop lay in its practical applications and real-world case studies. From crop health assessment to soil quality monitoring, participants were treated to tangible examples showcasing the impact of remote sensing in the agricultural domain. These illustrative instances resonated strongly with attendees, providing a bridge between theoretical knowledge and its practical implementation. Expert Speakers Eminent speakers from the fields of agriculture and remote sensing shared their knowledge and experiences. The questions posed at the end of each section, adding emphasis and depth to the proceedings. This cascade of inquiries reflected not just curiosity but a genuine commitment to understanding, turning the workshop into a dynamic exchange of knowledge. At the end of the section the organizers express their gratitude to all participants, speakers, and sponsors for contributing to the success of this insightful workshop. The knowledge shared and connections forged during the event are expected to have a lasting impact on the future of agriculture in the era of remote sensing technology.
