Name of Cell/Committee/ Subject: Training and Placement Cell

Linked Quality Metrics: QM 1.3 Curriculum Enrichment

Linked Program Outcomes: Pharmacy Knowledge, PO1; Problem Analysis (Application of Knowledge), PO4.

Nature of Activity: Bridging effort & Curricular enrichment through Institute visit

Background: Pharmaceutical Sciences subject is accompanied by practicals; however, students are unaware of many unit operations used at the Innovation Centre. Therefore, to deepen their understanding of unit operations, there is a need to create an opportunity for students to visit such centers & interact with the experts to minimize the gap.

Objective(s) of the Activity:

- To bridge the gap created due to learning the unit operations at a laboratory scale only.
- To realize the institute applications of various unit operations.
- To understand practical problems, remedial measures & safety issues while handling various unit operations from the experts.
- To realize the industrial discipline, SOP's followed in the process flow to ensure the quality.
- To enrich the knowledge about various unit operations at institute

COLLEGE OF PHARMACY, MALEGAON (Bk)

No. of Beneficiaries: 110

Remark of Activity Coordinator: It is evident from the student's feedback that students better understand how unit operations are conducted at institute. Students also learn R&D safety, problems during unit operations & their remedies etc from expert operators. I personally consider that the objectives of today's visit are achieved to great extent. I have also taken note of students' requests to organize similar visits in near future.
