Autonomous Institute
Department of Zoology

22/01/2021

Department of Zoology had organised **One Day State Level Webinar** on the occasion of **“National Bird Week”** in collaboration with Mudhoji College, Phaltan & BioVision Charitable Trust, Pune.

The resource person for the said workshop was Dr. Girish Jathar (Assitant Director, BNHS, Mumbai).

The Webinar was organized on 10th November 2020; in online mode. The platform of the webinar was **Google meet & YouTube live streaming session.**

Total participants of this webinar were 155 from various places & college in Maharashtra & few from other states too.

Head,
Dept. of Zoology

A screenshot of a YouTube live stream. The video player shows a slide titled 'Types of endemism' with two bullet points: 'a) Neo-endemism: A taxon is evolutionary young and not yet spread over the new area - White-bellied Shortwing (endemic to southern Western Ghats), Amboli Toad, Koyana Toad, Narcondam Hornbill' and 'b) Palaeo-endemism (Epibiotics, Relics): The taxon is restricted now but once it was widely distributed. The restriction of species in a pocket is due to physical barrier like deserts, mountain, sea, etc. or change in climate, habitat or soil type etc. - Indian Rhinoceros, Asiatic Lion, Great Indian Bustard'. The video player shows a progress bar at 40:08 / 1:42:35. Below the video, the title is 'Zoology - Endemic Birds of Northern Western Ghats of India - 10 Nov. @ 2:00 PM' with 274 views and a 'Streamed live on 10 Nov 2020' label. There are 18 likes and 0 comments. A 'Top chat replay' panel on the right shows a list of chat messages from various users, mostly saying 'Good Afternoon' or 'good afternoon'. At the bottom, there is a 'SUBSCRIBE' button.

One Day State Level Webinar
on the occasion of "National Bird Week"
date-10th November 2020

The screenshot shows a YouTube live stream interface. The video player displays a slide titled "Types of endemism" with two points: a) Neo-endemism: A taxon is evolutionary young and not yet spread over the new area - White-bellied Shortwing (endemic to southern Western Ghats), Amboli Toad, Koyana Toad, Narcondam Hornbill; and b) Palaeo-endemism (Epiotics, Relics): The taxon is restricted now but once it was widely distributed. The restriction of species in a pocket is due to physical barrier like deserts, mountain, sea, etc. or change in climate, habitat or soil type etc. - Indian Rhinoceros, Asiatic Lion, Great Indian Bustard. The video has 274 views and was streamed live on 10 Nov 2020. A chat replay is visible on the right side of the screen.
