Dist. Pune. Maharashtra, India.

**Empowered Autonomous Status**

Religious Minority Institute

NAAC Reaccredited 'A+' Grade, CGPA 3.55

NAAC-SSR

Cycle IV

2019 - 2024

## Criterion VII: Institutional Values and Best Practices

### Waste Recycling System

A waste recycling system in a college is implemented through a well-structured framework that focuses on the efficient segregation, collection, processing, and reuse of recyclable materials. Here's how a comprehensive waste recycling system is worked:

**1. Waste Segregation at Source:**

- Waste is categorized at the point of generation into recyclables (paper, plastic, glass, metal), organic waste, and non-recyclables.
- Well labeled bins are provided across the campus to facilitate easy waste segregation by students, staff, and visitors.

**Recyclable Waste: For paper, glass, metal, etc.**

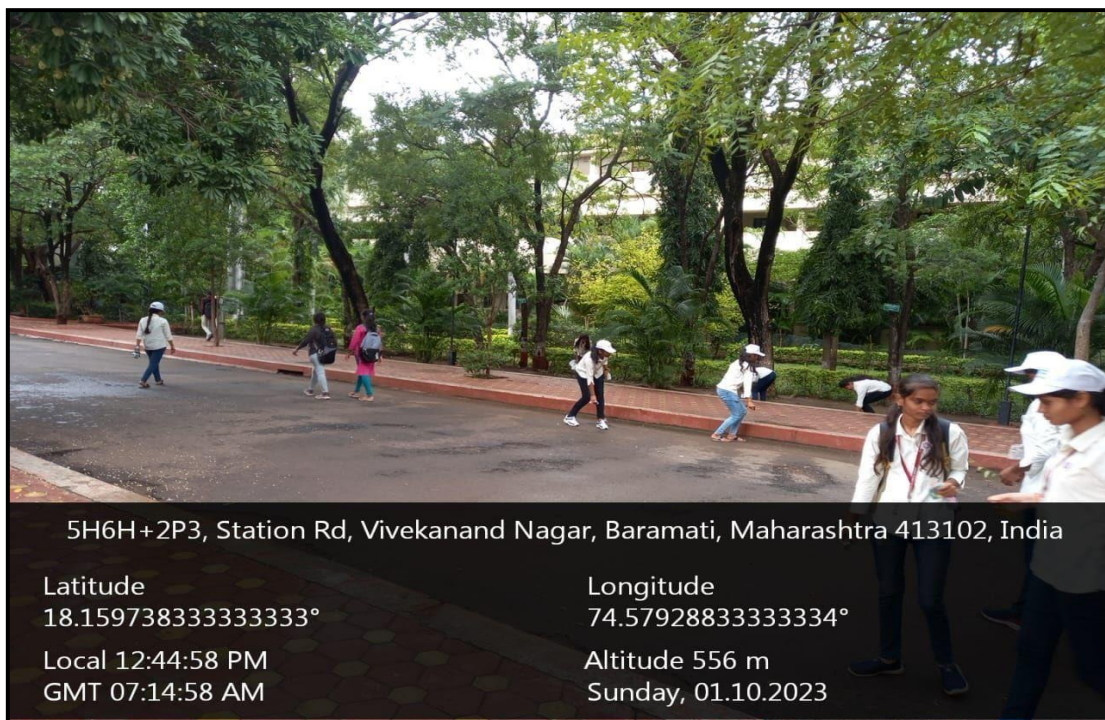

**Departmental Bin: Paper Waste (for paper and cardboard items)**

## 2. Collection and Transportation:

- Waste is collected regularly from all designated points across the college.
- Separate compartment are available in vehicles for the transport of different types of waste to ensure proper handling and avoid contamination.

**Garbage collection campaigns on campus conducted by NSS students**

waste transported to appropriate recycling under the agreement with Baramati Minicipal Corporation

### 3. On-campus recycling Units:

- The industrial effluent liquid waste is treated in a centralized effluent treatment plant. The treated water is reused for gardening, reducing dependence on municipal water sources.
- Organic waste, including food scraps and garden waste, is processed in the college's composting facility.

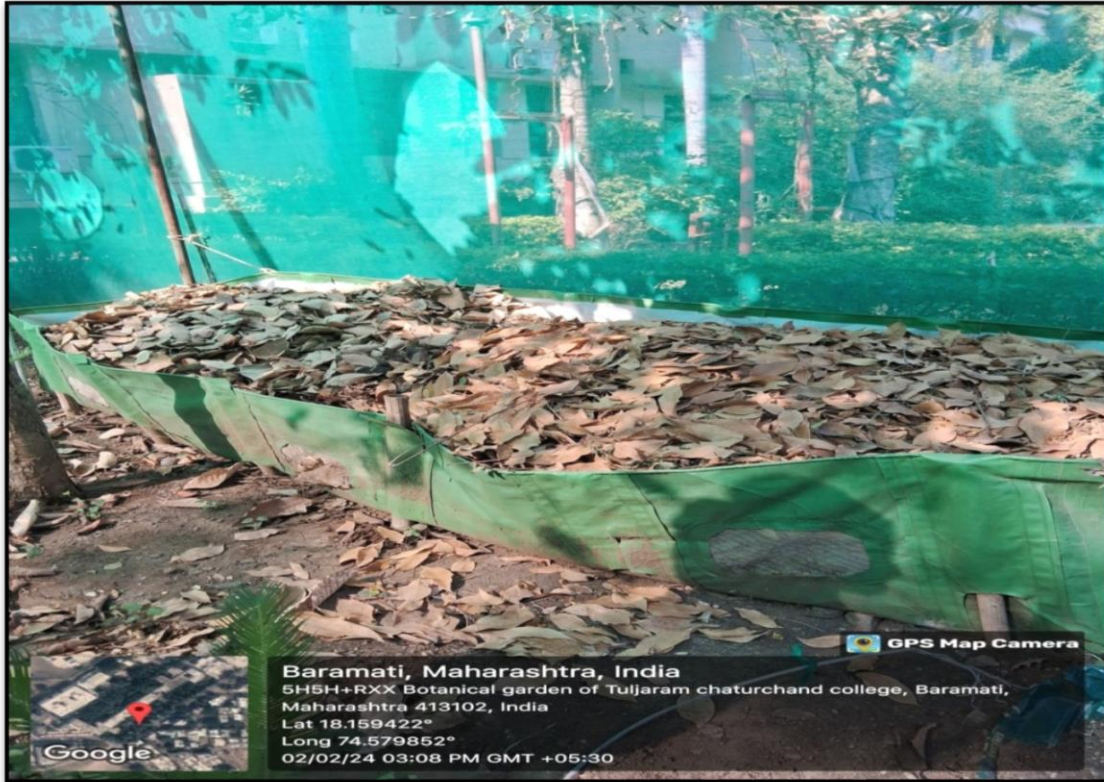

**Effluent Treatment Plant (ETP): For the treatment of wastewater**

**Biogas Plant for biodegradable waste**

**Composting Unit: vermicomposting facility**

**4. E-Waste Recycling:**

- College runs e-waste collection initiatives in collaboration with TATA Croma, focusing on promoting responsible disposal practices and contributing to circular economy.
- The institution also promotes refurbishment and reuse of electronic devices whenever feasible.

**E-waste campaign with TATA Croma: Collected e-waste materials in a box for recycle**

**Workshop on “Maintenance and Operation of Laboratory Equipment” with WRIC Mumbai**

**Computer lab maintenance program**

5. Monitoring and Reporting:

Certificate of Appreciation from Cromā
