Department of Zoology 14-17 September, 2022

Beekeeping is an ancient practice that involves the management of bee colonies, primarily for honey production. Bees play a vital role in our ecosystem as pollinators, contributing to the growth of plants and the production of food. The department of Zoology in association with Goda Giri Farms, Shrirampur organized a four-day workshop during 14<sup>th</sup> to 17<sup>th</sup> September, 2022. The workshop aimed to guide the students about techniques of beekeeping, building up of bee hives as well as proper methods of maintenance of bee colonies and extracting honey for commercial purpose. The workshop was attended by 20 students of UG and PG section of zoology department. Hands-on training was given in offline session by Mr. Rishikesh Autade. The teachers and non-teaching staff of the department contributed immensely for the smooth organization of the workshop.
