NAAC-SSR

Cycle IV

2019 - 2024

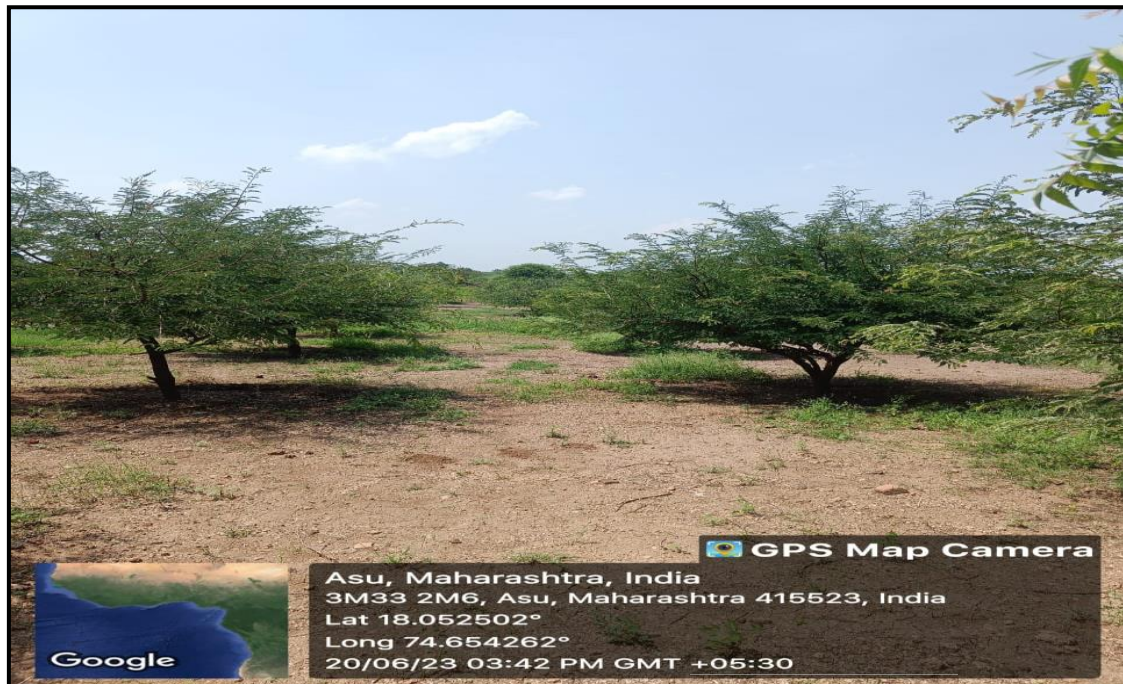

Criterion VII: - Institutional Values and Best Practices

7.2.1

Best Practice-I Green Initiatives

TREE PLANTATION AND CONSERVATION AT ASU VILLAGE

Tree plantation is a powerful tool for combating climate change, protecting ecosystem and fostering healthier communities. Regular tree plantation contributes to global reforestation efforts and make our earth cleaner and greener. Also, tree plantation helps in enhancing the beauty of the college campus. Underscoring the importance of trees in our life the Economics department of Tuljaram Chaturchand College planted more than 200 tamarind trees trees at Asu village in Phaltan tahsil in the year 2021. These trees are looked after and nurtured by the students and the staff. The planted trees are fully grown and a sight to watch. The head of the department Dr. Samadhan Patil along with his staff and students paid a visit during the month of August and September of 2023 to check the condition of these plant. Given below are details of the activity:

Conservation of Trees at Asu, Phaltan

Geo tagged photographs of Tree Conservation Activity

The plants are monitored and inspected regularly by the Economics department
