#### E- WASTE MANAGEMENT

#### ❖ E-Waste Management:

The college has partnerships with authorized recyclers to manage electronic waste. The damaged or out-dated computers, CDs and other e-equipment's are sorted out and sent to the college central store. These e-equipment's are sold out by means of a tendering process. Collection points are available where students and staff can dispose of old electronic devices for recycling. Awareness programs are conducted to educate the community about responsible e-waste disposal. The college organizes e-waste collection drives in association with TATAroma. This drive is conducted every year with an aim to promote responsible disposal practices and contributing to the circular economy. The institution also promotes the refurbishment and reuse of electronic devices whenever feasible.
